CLAIMS

What is claimed and desired to be secured by Letters Patent Is:

1. A mop swab of elongated ribbons of a wrapper of non-woven material at least folded double along their longitudinal axes and filled with at least one strip of an absorbent mesh material, said ribbons passing through a center area for binding to a mop handle fixture and having opposite looped ends at a tail of said mop swab.
2. The mop swab set forth in Claim 1 wherein said ribbons have a line of stitching to hold said wrapper around said strip.
